INTRODUCTION

The processing of donations is the cornerstone of stewardship for the organization. It is the basic data that informs the status of fundraising within the organization. If you are responsible for donation processing you are a steward for the organization.

We understand stewardship to be the following:

stew·ard·ship [stoo-erd-ship, styoo-] *noun*

1. the position and duties of a steward, a person who acts as the surrogate of another or others, especially by managing property, financial affairs, an estate, etc.

2. the responsible overseeing and protection of something considered worth caring for and preserving: *New regulatory changes will result in better stewardship of lands that are crucial for open space and wildlife habitat.*

3 the office, duties, and obligations of a steward

2 the conducting, supervising, or managing of something; *especially* : the careful and responsible management of something entrusted to one's care <*stewardship* of natural resources

You are one of the stewards along with the administrator of the organization's database and accuracy is paramount. A clean database is like money in the bank. Good Luck.

THE PROCESS STEP BY STEP

1. Gather checks and payment media.
2. Review, classify and prepare media for entry
3. Enter all donations
4. Run a donation report in Salesforce
5. Run a Thank you note report in Salesforce
6. Import data into WORD and perform a mail merge
7. Print and mail Thank you letters.

WHAT IS SALESFORCE?

Salesforce CRM is an online web-based Customer Relationship Management (CRM) service from Salesforce.com. As with all CRM software, it captures and organizes communications and information from current or prospective customers from many departments across a company or organization

Salesforce is a proven system to help manage large volumes of information across an organization and improves communication between departments for exceptional customer service.

REVIEW AND PREPARE YOUR MEDIA FOR ENTRY

Determine whether the donation is one of the following:

- Cash
- Check
- Money Order (same as cash)
- Wire Transfer
- Credit Card (one time charge)

Determine whether the donation is one of the following:

- Individual
- Corporate
- Foundation
- Special Event Corporate
- Special Event Individual

Donation Processing Procedures | 2012

Determine the close date of the donation. (The close date is the date of deposit)

Open your browser and navigate to the Salesforce login page and enter your username and password and log into the database.

The image shows the Salesforce login page. At the top, there is a blue header with the Salesforce logo and a "Bookmark this page" link. Below the header, there is a login form on the left and a promotional banner on the right. The login form includes fields for "User Name" (containing "jax@java.org") and "Password" (masked with dots). There is a "Remember User Name" checkbox and a "Login" button. Below the login button, there is a link for "Forgot your password?" and a link for "Don't have an account? Sign up for free." The promotional banner on the right features the text "Challengers" close 4X more deals." and a "See how" button. Below the banner, there are three cards: "The Social Enterprise is really heating up Summer 12 on FB", "Last chance to attend Dreamforce for \$699 Reserve by 5/14", and "CRM Customer Svc. Contact Centers Gartner Magic Quad." At the bottom, there are links for "Security Alerts, Best Practices, and System Status" and "New Users:".

The opening home page should look like this.

Check if the contact/donor is already in the Salesforce database before proceeding. Select the **CONTACTS** tab to begin your search.

Enter the contact/donor name in the search box and press **GO** to begin the search.

If your search does not produce a result try entering the entire name or organization. Searches can be case sensitive.

CREATING A NEW CONTACT

If you determine that the donor or organization is **NOT** in the database then enter the new contact, Begin by navigating over the **CREATE NEW** and engaging the drop down menu.

From this menu you can create the following:

- Appointment
- Task
- Contact
- Organization
- Donation
- Campaign
- Report
- Case

To create a contact choose **CONTACT** from the drop down menu,

Select Contact Record Type

Select a record type for the new contact. To skip this page in the future, change your record type settings on your personal setup page.

Select Contact Record Type (indicated by a black arrow)

Record Type of new record

To continue to enter a contact, choose the default and press **CONTINUE**.

Once you have chosen **CONTINUE** you will be taken to the screen CONTACTS screen.

This is the entire layout of the **CONTACT** page. The primary information that must be entered is broken out into sections: **Contact Detail**, **Donor Information**, **Contact Information** and **Address Information**

The screenshot shows the full CONTACT page layout with the following sections:

- Contact Detail:** Includes fields for First Name, Last Name, Title, Company, Deceased, Referred By, Source, General Notes, Tag, Email, and Phone.
- Donor Info:** Includes fields for Donor Name, VIP, and JVA Board Member.
- Contact Info:** Includes fields for National Phone, Mobile Phone, Work Phone, Other Phone, Fax, National Email, Personal Email, Work Email, Alternate Email, Street Opt Out, and Email Status.
- Address Info:** Includes fields for Primary Address Line, Primary Street, Primary City, Primary State/Province, Primary Zip/Postal Code, Primary Country, Street Opt Out, Household, Home State, Home Locs, Secondary Address Line, Secondary Street, Secondary City, Secondary State/Province, Secondary Zip/Postal Code, and Secondary Country.
- Demographic Information:** Includes fields for Gender and Birthdate.
- Contact Type:** Includes checkboxes for Veteran Member, Sponsorship, Press Contact, Partnership Contact, and Volunteer.

Begin with the **CONTACT DETAIL**. If you are missing information you can always go back and edit the entry at any time.

The screenshot shows the 'New Contact' form in the CONTACT page. The 'Contact Edit' section includes the following fields:

- Contact Details:** First Name, Last Name, Title, Company, Deceased, Referred By, Source, General Notes, Tag, Email.
- Buttons:** Save, Save & New, Cancel.
- Legend:** Red vertical bar indicates Required Information.

Donation Processing Procedures | 2012

Once you click **CONTINUE** you will be taken to the **NEW DONATION** page. Data marked with a red bar is required for entry.

The screenshot shows the 'New Donation' form in a web application. The form is titled 'Donation Edit' and 'New Donation'. It includes fields for Donation Name, Donation Owner, Executive Lead, Ask Date, Close Date, Stage, Pipeline Detail, and Priority. The Donation Name field is highlighted with a red bar. The form also has buttons for Save, Save & New, and Cancel.

DONATION EDIT: DONATION NAME should be automatically populated. If it is not, stop and consult the administrator. **DONATION OWNER** is the name of staff that entered the donation. **FISCAL YEAR** denotes the year that the donation was received or credited to. Fiscal denotes the year that the donation was received or credited to. Fiscal year runs from Jan 1 to Dec 31.

EXECUTIVE LEAD

This is the executive who is overseeing this opportunity or stewarding the key relationships. They will be informed when the stage changes.

The **CLOSE DATE** is the date the monies are deposited into the bank. **STAGE** denotes whether the donation is a **PLEDGE** which means the donation has not been deposited. **ASK DATE** is the date the **PLEDGE** to donate was made. **CLOSED** is the date the donation has been received and deposited.

The screenshot shows the 'Close Date', 'Stage', 'Pipeline Detail', and 'Priority' fields. The 'Close Date' field is highlighted with a red bar.

ORGANIZATION NAME should be populated automatically. If it is not, stop and consult the administrator. **NEXT STEP** denotes Thank You information as in: *TY to Judy McGrath for her donation of \$_____.*

Donor	
Organization Name	Judy McGrath
Next Step	

PAYMENT DETAILS: AMOUNT is the amount of the donation. **PAYMENT METHOD** denotes what payment type as in: Check, Money Order, Cash, Credit Card etc. **MEDIUM** denotes the way the donation was made. Donations are made either **ONLINE** via the website or entered manually via the Click and Pledge Virtual Terminal. **OFFLINE is everything else including wire transfers and stock donations.**

Payment Details

Payment Method	--None--
Medium	--None--

MORE INFORMATION contains **PRIMARY CAMPAIGN SOURCE**

A Campaign is loosely defined a category for donations as in a donation made during a particular event is catagorized under that event e.g. Fall Gala. However, Salesforce describes campaigns as “a marketing tactic (or series of tactics) that are designed to achieve specific goals such as increased revenue, leads, adoption, etc.” This definition is a good start, but it’s not quite complete. When talking about Salesforce Campaigns, there are plenty of marketing tactics designed to achieve specific goals that won’t show up in Salesforce, including brand sentiment or awareness.

This definition considers the fact that Salesforce Campaigns can handle just about any of the various campaigns described above, including tactics, events and themes. But the marketing/development team has to determine the level of granularity, simplicity or sophistication that needs to be tracked.

When implemented correctly, Campaigns are an excellent tool to track ROI and KPIs, optimize efforts, record marketing activity and provide accountability and visibility to the rest of the company or organization.

To assign a donation to a campaign, first determine from Finance or the Director of Development whether the donation should be assigned to a specific campaign. Once that is determined you can search the database for the correct campaign by typing in the name and pressing the magnifying glass icon at the right of the entry space.

More Information

Primary Campaign Source	COMMO - New York, all contacts	
Type	--None--	
Source Category	--None--	
Source Details		
Tracking Code		
c3/c4	--None--	

TYPE denotes what or how **'bucket'** the donation should be defined. In this case the options are **INDIVIDUAL DONATION** as from a specific donor. **CORPORATE DONATION** is a donation from a business, **FOUNDATION** donations are from a foundation organization, **SPECIAL EVENT CORPORATE** is a donation or ticket purchase made by a business for a specific event and **SPECIAL EVENT INDIVIDUAL** is a donation or ticket purchase made by a specific person for a specific event.

SOURCE CATEGORY further delineates the donation into the following categories:

- **EVENT**
- **EMAIL**
- **EARNED INCOME**
- **DIRECT MAIL**
- **REFFERAL**
- **FACEBOOK**
- **UNSOLICITED**
- **EMPLOYER MATCHING**
- **COMBINED FEDERAL CAMPAIGN**
- **PARTNERSHIP**
- **CHARITABLE FUND DRIVE**
- **IN-KIND DONATION-NON EVENT**
- **INTERNAL TO IAVA**
- **OTHER**
- **YEAR END FUNDRAISING.**

System Information CnP Order Number	
Save Save & New Cancel	

TRACKING CODE is an ad hoc categorizing tool providing more clarity for each donation. Some examples include: For checks over \$5000.00 the check number should be provided. For multiple donations made in honor or in memory should be categorized by the name of the honorarium or memorial. Further, a campaign can also be created.

C3 or C4 According to the IRS, "to be tax-exempt under section 501(c)(3) of the Internal Revenue Code, an organization must be organized and operated exclusively for exempt purposes set forth in section 501(c)(3), and none of its earnings may inure to any private shareholder or individual." Typically, charitable organizations receive 501c3 status allowing donors to receive tax deductions for their contributions to these organizations. However, having this status precludes an organization from participating in campaigning and lobbying activities. Conversely, the IRS states that a 501c4 organization operates exclusively to provide social welfare programs and net earnings must be used to support charitable or educational endeavors. According to the IRS, if your organization plans to participate in campaigning or lobbying activities, it can only receive tax-exemption through a 501c4 status.

ALL DONATIONS SHOULD BE C3 UNLESS OTHERWISE DIRECTED BY FINANCE OR THE DIRECTOR.

IN HONOR/MEMORY OF is a category set aside for donors to contribute in the name of another.

Once all information is entered into the donation record press **SAVE** to enter data into the database. Repeat this process for each donation.

RUNNING REPORTS

To run a report, find the report you want to run on the Reports tab and click the report name. Most reports run automatically when you click the name. If you're already viewing a report, click **Run Report** to run it immediately or schedule a future run.

Tip

Sometimes a report returns no results. If you don't see any results, check the report for the following conditions:

The report didn't return any data. Check your filter criteria to make sure some data is returned.

Due to field-level security, you don't have access to one of the groupings you selected.

Your custom summary formula's context didn't match the chart settings. For example, if the formula is calculated for Industry, but the chart doesn't include Industry, no results are returned.

Your values are out of the range of acceptable values. The maximum value allowed is 9999999999999999. The minimum value allowed is -9999999999999999.

NOTES ON RUNNING REPORTS

VISIBLE RECORDS

Reports show only the information you can access. This includes records you own, records to which you have read or read/write access, records that have been shared with you, records owned by or shared with users in roles below you in the hierarchy, and records for which you have "Read" permissions.

PRINTING REPORT FOLDER CONTENTS

When viewing a list of reports in a particular folder, you can click **Printable View** to open the current list view in a print-ready format.

RUNNING LARGE REPORTS

If your report returns more than two thousand records, only the first two thousand records are displayed. To see a complete view of your report results, click **Export Details**.

CREATING A NEW DONATION REPORT

Click on the reports tab and click **NEW REPORT**.

On the left panel you will see the list of **OBJECTS**. Within each object folder there are multiple report types. These reports can be connected to other report objects or be used to display very specific fields to help build reports more efficiently. You can find all of the custom and imported objects in the **OTHER REPORTS FOLDER**.

Click on the donation report type then click **CREATE** on the far right

Depending on the report type the default report fields will be prefilled with helpful fields that may relate to your report. For the most part, these fields are relevant to your report. You may want to add additional items.

To create a new donation report, use the search feature and type in **DONATIONS**. Now you will see several donation report types. Type in the Quick Field what you need in your report. In **WEEKLY DONATION REPORTS**, you will need the following:

- **CLOSE DATE**
- **AMOUNT**
- **NAME OR ORGANIZATION NAME**
- **TYPE**

You can drag each object into the report matrix and place wherever you like. As you click and drag the object into the report you will notice that the object sometimes changes to the color green. This signals that the object is in the correct 'zone' to be dropped. To **DELETE** items from the report matrix just click and drag the object back to the original object directory column on the left.

Fields

Quick Find

Drag and drop to add fields to the report.

To move or remove objects click on the header and drag back to the directory or place in the report where you would like it to appear.

Donation Processing Procedures | 2012

The screenshot shows the Salesforce 'Unsaved Report' interface for 'Report Type: Donations'. The 'Fields' list on the left includes 'Donation Name', 'Type', 'Lead Source', 'Amount', 'Expected Revenue', and 'Close Date'. The 'Filters' section shows 'Show: All donations', 'Date Field: Close Date', and 'Range: Current FQ' from 4/1/2012 to 6/30/2012. A context menu is open over the 'Type' column header, showing options: 'Sort Ascending', 'Sort Descending', 'Group by this Field', 'Limit Rows by this Field', 'Summarize this Field...', 'Bucket this Field...', and 'Remove Column'. The report table displays donation records with columns: Donation Name, Type, Lead Source, Amount, Expected Revenue, Close Date, and Next.

Donation Name	Type	Lead Source	Amount	Expected Revenue	Close Date	Next
Meredith Killough- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Roger Garcia- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Steve Jones- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Jill Lichtenstadter- Donation 4/1/2012	Individual Donation	-	\$25.00	\$25.00	4/1/2012	-
Dominic Bruno- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Dr Richard G Macdonald- Donation 4/1/2012	Individual Donation	-	\$50.00	\$50.00	4/1/2012	-
Dr Richard G Macdonald- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Caitlin FitzGerald- Donation 4/1/2012	Individual Donation	-	\$25.00	\$25.00	4/1/2012	-
David Sieving- Donation 4/1/2012	Individual Donation	-	\$5.00	\$5.00	4/1/2012	-
Lucas Welch- Donation 4/1/2012	Individual Donation	-	\$25.00	\$25.00	4/1/2012	-

You can sort by any object in the report matrix by clicking the **COLUMN HEADER/OBJECT**. Ascending order is signified by an upward facing arrow to the right of the column header. Click again for descending.

At the top you can click on the **SHOW DROPDOWN** menu and select all donations. To define a date range, choose an option from the drop down menu or type in a specific date range. You can now click **RUN REPORT** to pull the data that you selected for.

This screenshot shows the same Salesforce report interface, but with the 'Show' dropdown menu open. The menu options are 'All donations', 'My donations', 'My team's donations', and 'All donations'. A large black arrow points to the 'All donations' option. The report table below shows the same data as the first screenshot.

Donation Name	Type	Lead Source	Amount	Expected Revenue	Close Date	Next
Meredith Killough- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Roger Garcia- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Steve Jones- Donation 4/1/2012	Individual Donation	-	\$10.00	\$10.00	4/1/2012	-
Jill Lichtenstadter- Donation 4/1/2012	Individual Donation	-	\$25.00	\$25.00	4/1/2012	-

THE WEEKLY DONOR REPORT

Click on the REPORTS TAB

The screenshot shows the IAVA CRM dashboard. The 'Reports' tab is selected in the top navigation bar. On the left, there is a 'Search' section with a dropdown menu set to 'Donations' and a 'Go!' button. Below this is a 'Custom Links' section with a 'New Research Request' button and a 'Recycle Bin' button. The main content area displays a 'Dashboard' with three gauge charts showing 'Money Raised Current Calendar Year', 'Money Raised Current Calendar Month', and 'Money Raised Current Calendar Week'. The 'Weekly Donor Report' link is highlighted in the 'All Folders' list on the left, with a black arrow pointing to it.

Double click on the **WEEKLY DONOR REPORT** to run the report.

The screenshot shows the 'Reports & Dashboards' section of the IAVA CRM. The 'Reports' tab is selected in the top navigation bar. On the left, there is a 'Folders' section with a search bar and a list of folders. The 'All Folders' list is expanded, showing a table of reports. The 'Weekly Donor Report' link is highlighted in the table, with a black arrow pointing to it.

THANK YOU NOTES AND MAIL MERGE

WORD includes **MAIL MERGE** feature, which enables user to create documents (Letter, Emails, Fax etc) that are essentially the same but contains unique elements such as recipient Name, Address, Contact No, City, State, etc. It helps user to create a document for multiple recipients more easily by just selecting recipient names and choosing the document. Personal details of the respective recipient will be automatically added in the document which prevents users to write each recipient's personal info in every document, eventually saving a lot of time.

Launch Word 2010, Navigate to **MAILINGS** tab, and from **START MAIL MERGE** options, click *Step by Step Mail Merge Wizard*.

This will bring up **MAIL MERGE** dialog at the side of the Word document window, here you can specify type of document you want to create, we will select **LETTERS**, click **NEXT: STARTING DOCUMENT** from the bottom of the dialog.

In this step, you will be provided with different options to create **LETTERS**, choose simple procedure by selecting by template. Click **SELECT TEMPLATE**.

This will bring up *Select template* dialog, choose a suitable template. We will be using **TY JUNE 2012** template. Click **OK** to continue.

At the left side of the window you can see the template is imported into document, from right-pane, click **NEXT: SELECT RECIPIENTS..**

*Fighting for our nation's
newest generation of heroes.*

for your \$25 donation* to Iraq and Afghanistan Veterans of America (IAVA). Welcome to our
if supporters! Your commitment and encouragement are vital for us to continue our mission to
lives of Iraq and Afghanistan veterans and their families.

ide of war, Iraq and Afghanistan troops, veterans and their families need your support more

lion Americans have served in Iraq or Afghanistan to date, and hundreds of thousands have been

In this step, you can choose different options to import recipient list, we will select an existing list, hit Browse to import desired recipients list.

Using the recipients list created In **EXCEL 2010**. The name of the worksheet is **MAIL**. Import to Word **MAIL MERGE**.

	A	B	C	D	E	F	G
1	Title	First Name	Last Name	Street	City	Zip	
2	Mr.	Jack	Smith	124 Huaritz lane	Akron	65445	
3	Mr.	Billy	hyte	22 park ave	Montgomery	23232	
4	Mr.	Von	Mcfaden	445 St huter	Richmond	44533	
5	Mr.	Steven	Shwimmer	12 Briks way	Chul vista	34534	
6	Mr.	Ruby	jason	11 gerado Ave	Garland	76456	
7	Mr.	Mark	Dyne	211 ceana way	Lubbock	54445

12							

The screenshot shows an Excel spreadsheet with a table of recipient data. The table has columns for Title, First Name, Last Name, Street, City, and Zip. The data is organized into rows, with the first row being the header. The 'Mail' worksheet is selected, and the 'Mail' button in the worksheet tab bar is highlighted with a red rectangle.

Choose an Excel worksheet, click **OPEN** to import.

SELECT TABLE dialog will appear, now choose the worksheet which contains required data, if first row contains column headings, then enable *First row of data contains column headers* option, and click **OK**.

You will see the *Mail* worksheet in the *Mail Merge Recipients* dialog. Here you can filter down the recipients on the basis of column headings. If we want to send letters to the recipients living in city *Akron*. We will select *Akron* from *City* drop-down options.

Upon click, it will show only the recipients living in Akron. Here you can also perform different actions over the list such as; *Sort*, *Filter*, *Find duplicates*, *Find recipients*, and *validate address*. Click *OK* to proceed further.

Now navigate to *Mailings* tab, and click *Address Block*.

You will reach *Insert Address Block* dialog, from *Specify address elements*, choose format in which you want to show recipient name.

Under *Preview* you can see the preview of the changes that affects. Under *Correct problems*, click *Match Fields* to insert new field in the letter, as we want to include address of the recipient.

Match Fields dialog will appear, now from *Address 1* options select *Street*. That will include the name of the street. You can also include other fields if required. Click *OK* to continue.

You will see the address is added in to the format as shown the screenshot below. Click *OK* to continue.

Now we will customize the greeting message, for that navigate to *Mailings* tab, and click *Greeting Line*.

In *Insert Greeting Line* dialog, you can choose desired greeting format from *Greeting Line format*. Under *Greeting line for invalid recipient names* choose the format for unknown recipients. Under *Preview*, it show the preview of of the changes you made. Click *OK* to continue.

Now to make *Address Block* more prominent, navigate to *Home* and apply color and font styles over it.

Navigate to *Mailings* tab, and from *Finish & Merge* menu, click *Edit Individual Documents*.

It will bring *Merge to New Document* dialog, you can choose *Current record*, we will select *All* to view all the recipients. Click *OK* to show the letter of each recipient.

Now as you can see in the screenshot below, Mail Merge created letters of each recipients residing in city Akron with their respective street names.

CLICK AND PLEDGE

Within the Click and Pledge donor management system is a virtual terminal where you can manually run credit card and echeck transactions.

To run a transaction you simply fill in the required fields

Required fields are marked in **RED**.

The screenshot displays the 'CLICK & PLEDGE' Donor Management system interface. The top navigation bar includes links for Home, Households, Organizations, Patrons, Opportunities, Dashboards, C&P Transactions, C&P Recurrings, C&P Reports, C&P Import, and C&P Virtual Terminal (which is highlighted). A search bar for patrons is also present. The left sidebar contains a 'Create New' button, a 'Recent Items' section with 'No records to display', and a 'Recycle Bin' button. The main form area is titled 'C&P Virtual Terminal' and contains several sections: 'Payment Description' with fields for 'Payment for', 'Amount \$', 'Deductible \$', 'Discount \$', 'Shipping \$', and 'Tax \$'; 'Recurring' with a checkbox 'Is this a recurring payment'; 'Billing Information' with a search bar and fields for 'First Name', 'Last Name', 'Address1', 'Address2', 'City', 'State', 'Zip/Postal Code', 'Country', 'Province (non-US)', 'Phone', 'Email', and 'Confirm Email'; 'Tracker & Campaigns' with fields for 'Tracker' and 'Campaign'; and 'Payment Method'.

RECURRING PAYMENT

You may also set up a transaction to be a recurring transaction.

There are two different types of recurring transactions. The installment option will break a larger amount into smaller amounts like an installment plan. The subscription option repeats the same transaction amount. Both plans allow you to choose the period of time the payment is to reoccur and the length of time it will last.

The screenshot shows the 'C&P Virtual Terminal' interface. The top navigation bar includes links for 'ations', 'Patrons', 'Opportunities', 'Dashboards', 'C&P Transactions', 'C&P Recurrings', 'C&P Reports', 'C&P Import', and 'C&P Virtual Terminal'. The main form is divided into three sections:

- Payment Description:** Includes fields for 'Payment for' (set to 'Donation'), 'Amount \$' (100), 'Deductible \$' (100), 'Discount \$' (0), 'Shipping \$' (0), and 'Tax \$' (0).
- Recurring:** Includes a checkbox for 'Is this a recurring payment' (checked), 'Recurring Type' (dropdown), 'Periodicity' (dropdown), '# of installments' (0), and 'Ending date'.
- Billing Information:** Includes a search bar 'search by first name, last name, or email', an 'Existing Patron' field with a 'Load' button, and fields for 'First Name', 'Last Name', 'Address1', and 'Address2'.

Here under the billing information the system does allow you to look up an established donor within the click and pledge donor management application. You can look them up using first name, last name or email address.

This screenshot shows the 'Recurring' and 'Billing Information' sections of the form, with some fields populated:

- Recurring:** 'Is this a recurring payment' is checked. 'Recurring Type' is set to 'Subscription', 'Periodicity' is 'Monthly', and '# of installments' is 12.
- Billing Information:** The search bar is populated with 'su'. The 'Existing Patron' field shows 'Higgs, Sue, susan@clickandpledge.com'. Other fields like 'Address1', 'City', 'State', 'Country', 'Phone', and 'Email' are empty.
- Tracker & Campaign:** Includes fields for 'Tracker' and 'Campaign'.

Click on it and then click **LOAD** and the data will autofill the information for you.

The screenshot shows a web form for processing donations. It is divided into three main sections with light blue headers:

- Recurring:** Contains a checkbox "Is this a recurring payment" which is checked. Below it are fields for "Recurring Type" (set to "Subscription"), "Periodicity" (set to "Monthly"), "# of installments" (set to "12"), and "Ending date" (an empty field).
- Billing Information:** Starts with a search bar "search by first name, last name, or email" containing "Higgs, Sue, susan@clickandpledge.com" and a "Load" button. Below this are fields for "First Name" (Sue), "Last Name" (Higgs), "Address1" (123 Bay St.), "Address2" (empty), "City" (Hattiesburg), "State" (Mississippi), "Zip/Postal Code" (39401), "Country" (United States of America), "Province (non-US)" (empty), "Phone" ((540) 961-9811), "Email" (susan@clickandpledge.cc), and "Confirm Email" (susan@clickandpledge.cc).
- Tracker & Campaign:** Contains two empty text fields labeled "Tracker" and "Campaign".

If that person is not a current donor in the system then simply just fill in the fields.

The system uses a person's email address to recognize if is is a new donor or existing one.

Since donors may have the same last names first names etc. but not the same email address it is a good way to identify donors. Basically this is used as a unique identifier.

To make sure that the data being put inot the system is accurate please use the donor's correct email address.

Tracker and Campaign information can also be added and be aware that it is case sensitive.

Under pay method you can choose credit and echeck and then put that information in those fields.
